Are you confident in navigating sukuk?

As the global sukuk market grows, many professionals struggle to fully understand how these instruments work and how to apply them effectively. Without this clarity, opportunities in Islamic capital markets may be missed or misunderstood.

This masterclass is designed to **simplify sukuk** and make them practical, relevant, and accessible.

Are your Fintech solutions truly Shariah compliant or simply adjusted after the fact?

In today's fast-moving digital landscape, many **Fintech innovations** are built "tech-first, Shariah-later".

This creates risks in credibility, compliance, and scalability. The real advantage lies in structuring products that are Shariah compliant by design.

ONLINE WEBINAR

How does an institution move from Shariah approval to real assurance?

Shariah compliance does not stop at product approval. Real assurance begins when Shariah decisions are properly translated into operations, documentation, controls, systems, and reporting.

This masterclass helps participants understand how to scope Shariah audit work, identify key risk areas, collect reliable evidence, diagnose root causes, and report findings that support stronger governance and effective corrective action.

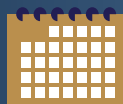

Who Should Join?

- ✓ Internal and Shariah auditors
- ✓ Compliance, risk, and governance professionals
- ✓ Shariah officers and Shariah Committee members
- ✓ Operations and product development personnel
- ✓ Legal and consulting professionals
- ✓ Regulators, supervisors, and external auditors
