

iFIN School

From Boardroom to Classroom

iFIN School

A Strategic Initiative Engineered by **Amanie Advisors**
Leading Frontier in Islamic Finance Shariah Advisory

2026

A LEGACY OF ADVISORY EXCELLENCE

iFIN School is built on over 21 years of advisory experience from **Amanie Advisors**, a firm deeply involved in the development of the global Islamic finance industry, that has advised financial institutions, regulators, and capital market participants across multiple jurisdictions since 2005.

We **turn real industry experience into practical learning, bridging the gap between theory and practice**. Our programmes are shaped by hands-on work in transactions, regulatory discussions, advisory engagements, and Shariah deliberations experience once shared in boardrooms and client engagements.

Today, **iFIN School** brings this expertise to a wider audience through practitioner-led programmes in Islamic capital markets and finance, designed for real-world application.

What we have learned through practice, we now share.

Deepened market-relevant knowledge through real-world Islamic finance practices	Strengthened Shariah governance and compliance capabilities in practical settings	Enhanced ability to translate theory into effective execution across the financial ecosystem
---	---	--

*"At **iFIN School**, we don't teach from textbooks; we teach from mandates. With a 21-year legacy of engineering Shariah solutions across various jurisdictions, we've moved the boardroom into the classroom. Welcome to the future of Shariah excellence."*

*A Strategic Initiative Engineered by **Amanie Advisors***

Why Choose Us

Not Theory. Practice.

What sets us apart is simple:
You learn from **Shariah advisors and practitioners behind real deals.**

Our Recognition
